

ENVIRONMENTAL POLICY STATEMENT

Gold Coast City Marina & Shipyard (GCCM) is committed to providing world-class standard facilities and a customer experience that promotes leadership in environmental sustainability. The creation and maintenance of a clean, efficient and safe work environment is regarded as an essential part of our business practices.

As a conscious and responsible member of the Gold Coast community, GCCM is focused on driving environmental compliance and leading the way in sustainable business initiatives to ensure our local waters, marine life, fish and adjoining communities are sustainable.

The Gold Coast City Marina & Shipyard is committed to:

- Minimising environmental harm and environmental nuisance where reasonably practical.
- Operating all activities in compliance with any statutory requirements for protecting the environmental values of air, noise and water.
- Conducting the operation of its refuelling wharf, marinas, boat maintaining and repairing facilities in a manner consistent with environmentally sustainable development.
- Minimising waste generation by use of cleaner operational techniques and the reuse and recycling of wastes.
- The use of hazardous materials and chemicals is managed to minimise their impact on the environment.
- Ensuring GCCM's activities are in the public interest.
- Continuous improvement.

This is supported through a company-wide culture where everyone acknowledges the important roles we all play in making GCCM a standout leader in our field.

Andrew Chapman
Chief Operating Officer, GCCM
